

2011-07-12

To MT-System,

We are very pleased to inform you that the first 1'000'000units of SIMCOM GSM/GPRS modem was delivered to MT-System on June 30th, 2011.

This becomes possible because of

- 1) High quantity and cost-effective modems from SIMCOM;
- 2) Well-established partnership between SIMCOM and MT-System;
- 3) Highly competent staff and strong financial support from MT-System;

SIMCOM is a wireless modem supplier with an excellent reputation in the M2M market; SIMCOM has been ranked as the No. 2 wireless modem suppliers in the world by ABI Research since 2008.

We always study the demands of customers and the trends in M2M industry thoroughly, getting our customers benefited from the continuously improved wireless solutions.

Thanks a lot for all your co-operations and efforts over the past several years for the support of SIMCOM in Russia; we are looking forward to working closer with MT-System in the future.

Regards,

Shanghai SIMCOM Wireless Solutions Ltd.
