Effective Date	2017/5/15

Reason/s for Change

Because the WCDMA/GSM PAs, Antenna Switch and FLASH used in SIM5360E have been phased out, SIMCom has to change them to new ones. The discontinued ones and the replacement ones are all listed in above table.

SIMCom declares that this change will not affect the customer applications. In order to distinguish the module which uses new WCDMA/GSM PAs and FLASH, we add a new P/N to SIM5360E.

Module name	P/N
SIM5360E	S2-10702

Thanks for choosing SIMCom products!
